EDUCATION

California State University, Fullerton — **California, USA**

Master of Science in Computer Science (In Progress) — 2025 - 2027

Course Work: Artificial Intelligence, Modern Software Management

Jawaharlal Nehru Technological University — **Hyderabad, India**

Bachelor of Technology in Computer Science & Engineering — 2019 - 2023

Relevant Courses: Data Structures & Algorithms, Database Management Systems, Data Analytics, Data Mining, Machine Learning, Operating Systems, Cloud computing, Object-Oriented Programming

SKILLS

Programming Languages: C, C++, C#, Java, Python, PHP, Ruby, Perl, SQL, JavaScript, TypeScript

Web Development: Node.js, Express.js, React.js, HTML5, CSS3, REST APIs, JSON

Databases: Informix, MongoDB, SQLite, MySQL, PostgreSQL

Tools & Platforms: Unity, Xamarin, Jenkins, Git, ClearCase, Rational ClearQuest, Jira, Docker, Kubernetes

Operating Systems & Scripting: Linux/Unix, Shell scripting, Bash, PowerShell

Cloud & DevOps: Oracle Cloud Infrastructure, AWS (EC2, S3 basics), CI/CD pipelines, Version Control

Other Skills: Data Structures & Algorithms, Object-Oriented Programming, Software Testing & QA, Debugging, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer - Informix Development Team — **Pune, India**

HCLSoftware (A Division of HCL Tech) — **Aug 2023 - Aug 2025**

- Performed root cause analysis and deployed long-term fixes for defects reported by QA and end-users, enhancing system stability and reliability.
- Identified and resolved defects across Linux, PowerLE, and Windows platforms during QA testing, ensuring product quality and on-time delivery.
- Automated data retrieval processes and addressed infrastructure issues, streamlining development workflows and improving team productivity.

MERN Stack Developer Intern - Remote — **Hyderabad, India**

Quadrilite Technologies — **Jan 2022 – Jun 2022**

- Developed full-stack web applications using **MongoDB, Express.js, React.js, and Node.js (MERN)**.
- Built and optimized REST APIs, integrated third-party services, and improved application performance.
- Collaborated with a team of developers using **Git** and **Agile methodologies**.

ACADEMIC PROJECTS

Spell Checker | *Python, Tkinter, TextBlob, PyspellChecker, JamSpell*

- Developed a real-time spell and grammar checker with **95% accuracy** for text correction.

Hospital Management | *Python, Tkinter, SQLite*

- Designed a system to recommend nearest hospitals/clinics based on patient details, improving accessibility by **80%.**

Study Material Organizer | *C#, Xamarin, Node.js, MongoDB*

- Built a Cross-platform app to organize study materials, timetables, and announcements, used by **50+ students/lecturers**.

Advanced Chatbot: Beebot | *Python, NLTK, speech_recognition, Pyttsx3, RAKE, Naïve Bayes*

- Engineered a chatbot providing personalized responses through NLP + ML, presented at **ICCM 2023.**

CERTIFICATIONS & ACHIEVEMENTS

- Received a Conference Participation certificate for participating in International workshop sessions at the **9th ICCM 2023.**
- Certified in Oracle Cloud Infrastructure Foundations.
- Certificate of paper presentation at **9th ICCM 2023** for the contribution entitled **"Advanced Chatbot: BEEBOT".**
- Presented a Technical Seminar on the topic **"RPA(Robotic Process Automation)".**
- CCNA: Introduction to Networks. A Cisco course that specializes in the internet and networking.
- PCAP (Programming Essentials in Python). Provided by Cisco Networking Academy.
